

Open to internships from May 2026 to Dec 2026.

EDUCATION	Indiana University Bloomington	Bloomington, IN, US
	<i>Ph.D. in Computer Engineering</i>	2022 - 2027 (expected)
	• Advisor: David J. Crandall • Research area: Multimodal Learning; Egocentric Video Understanding. • GPA: 3.90/4.0.	
	Jilin University	Changchun, Jilin, China
	<i>M.Eng. in Computer Technology</i>	2019 - 2022
	• Research area: Multi-Sources Image Fusion, Sparse Representation. • Cumulative GPA: 86.07/100 (Top: 5%).	
	Chengdu University of Technology	Chengdu, Sichuan, China
	<i>B.Eng. in Information Engineering</i>	2014 - 2018
	• Cumulative GPA: 81.60/100 (Top: 20%).

 9. **Yu Wang**, Xiongfei Li, Rui Zhu, Zeyu Wang, Yuncong Feng and Xiaoli Zhang. A Multifocus Image Fusion Framework Based on Multi-Scale Sparse Representation in Gradient Domain. *Signal Processing*, 2021.

PROJECTS	Social Robotics and Human-Robot Interaction	2024 – Present	
	<i>Toyota Research Institute Fund</i> - Contributed to the development of a dialogue system aimed at supporting more natural and empathetic interactions between robots and older adults. - Coordinating team efforts on dataset annotation and preparing the data for subsequent benchmark construction. - Designing a multimodal approach that enables robots to anticipate turn-taking moments for smoother conversations. <i>The paper has been submitted to a top AI conference, and the arXiv version will be released soon.</i>		
	AI Institute: The Institute for an AI-Engaged Future of Learning	2023 – 2024	
	<i>National Science Foundation Fund</i> Worked on developing a deep learning model for active speaker detection in videos by integrating audio and visual modalities.		
TEACHING EXPERIENCE	Deep Learning Architecture & Hardware Acceleration	Spring 2023	
	<i>Associate Instructor, Indiana University</i>		
	Deep Learning Systems	Fall 2024	
	<i>Associate Instructor, Indiana University</i>		
	Machine Learning Signal Processing	Spring 2025	
	<i>Associate Instructor, Indiana University</i>		
AWARDS & SCHOLARSHIPS	Excellent Graduate Award, Jilin University Provincial Excellent Graduate Thesis, Jilin University National Scholarship of China, Jilin University Master’s Excellence Scholarship, First Prize (Top 5%), Jilin University Excellent Master’s Student Prize (Top 5%), Jilin University Academic Performance Scholarship (Top 40%), Jilin University Excellent Student Club President Prize, Chengdu University of Technology	2022 2022 2021 2020 - 2021 2020 - 2021 2019 - 2021 2016	
	Languages: Mandarin, English.		
	Programming: Python, C++, MATLAB.		
	ACADEMIC SERVICES	Reviewers for:	
		<i>ECAI 2025</i>	
		<i>CVPR 2026</i>	
		<i>ECCV 2026</i>	
<i>NeurIPS 2026</i>
